

ADMIN - USER REGISTRATION

For: WhatsApp Admin / Main Admin

Aaj ka target

Har staff ka correct role, mobile number aur warehouse scope record hona chahiye.

Trainer ko bolna hai

"Pehle user banao, phir role do. Galat role dena galat password dene se bhi zyada dangerous hai."

Rule: har step ke baad screen par dekh kar bolo - Done. Samajh na aaye to ruk jao, galat button mat dabao.

Before you start

Ek list haath mein rakho: staff name, mobile, role, warehouse, and temporary password.

1. Login as Admin or WhatsApp Admin.
2. WhatsApp Wholesale kholo, phir Team tab kholo.
3. Staff ke paas uska own WhatsApp number hona chahiye.

Do not guess

Mobile number ya role guess karke mat bharo. Staff se confirm karke hi save karo.

Create one user

Har employee ke liye same script follow karo.

1. Name mein staff ka poora naam likho.
2. Username simple likho, jaise sales.raj ya warehouse.pavel.
3. WhatsApp number country code ke saath likho: 919xxxxxxxxx.
4. Operational role select karo: Sales, Purchaser, Warehouse Manager, Delivery, ya Collection Agent.
5. Warehouse select karo. Ek hi wholesale warehouse hai to wahi select karo.
6. Temporary password do aur Create operational user dabao.
7. Directory mein name aur mobile dikh raha hai, tab hi next user banao.

What to say

Aapka login ban gaya hai. Password pehle login ke baad safe jagah rakhiye. Kisi aur ko share mat kariye.

Role check

User ko sirf uska kaam dikhna chahiye.

1. Sales user ko Sales, Sales Orders aur WhatsApp chat dikhna chahiye.
2. Warehouse Manager ko Warehouse IN and OUT dikhna chahiye.
3. Delivery + Collection agent ko Current Delivery aur collection actions dikhne chahiye.

4. Purchaser ko Purchase module dikhna chahiye.

If wrong module appears

User se kaam mat karvao. Admin ko bolo and role correct karvao.

Training complete

Trainer ke saamne ek sample transaction karke dikhao. Galti ho to note banao; khud se delete ya final cancel mat karo.
